Resourcing Matters has launched its new website www.resourcingmatters.com. The website focuses on our key strengths which is designing assessment tools for development and recruitment. We have streamlined the website so that you can more easily identify the services we offer. We have also launched a new product based on the traditional set of playing cards called 'Succeeding as an Interviewer'. These are designed to help managers run Competency Based Interviews effectively. If you wish to receive a free copy of our 'Succeeding as an Interviewer' cards please email your contact details to contact@resourcingmatters.com

It is now easier to move between the resourcing matters website and to our graduate community website www.1st-step.co.uk. This site has attracted over 120,000 visitors and you have the opportunity to post your graduate vacancies for free. Just go to the Job Board on the site and follow the instructions.

We will be running polls on popular topics and will feedback on the findings. If you have a suggestion for a poll topic - something that you would like to research - let us know and we can post it and collect the interest.
